LAUNCHES

IN BETWEEN TABLE

BY SAMI KALLIO

FOLLOWING &TRADITION AND KALLIO'S COLLABORATION TO PRODUCE THE IN BETWEEN SERIES THE TWO HAVE COME TOGETHER AGAIN TO CREATE A NEW DINING TABLE.

2015

Intrinsic to Sami Kallio's "In Between" concept is the role of positive and negative space, instantly apparent in Kallio's In Between Chair. With the launch of his In Between Table, the positive space is lean and elongated, able to match its sibling chair or any other chair, for that matter. "I wanted to see what happens to a surface volume and its relationship to space," explains Kallio. The result is a supremely simple dining table, which doesn't impose itself on a room. "The lack of details remove any reference to time and allow the table to fit into any modern setting. And to mix with various epochs," adds Kallio.

A master of traditional woodworking techniques rooted in his Nordic heritage, Kallio has achieved a remarkable balance between two techniques. Namely compression moulding to make the table light and slim yet sturdy. And woodturning, which involves using a lathe to finesse fine details.

"Kallio's process of merging man and machine makes this table a must for our portfolio of products," says &tradition Brand Manager Martin Kornbek Hansen. "The co-existence of the past and the present are not only fundamental for us. They are fused with perfection in Kallio's streamlined design, which is at once contemporary yet timeless."

As for the material, "Wood in itself is a combination of tradition and contemporary," adds Kallio. "Wood signifies something natural, emotional and sustainable." What's more, wood is authentic vs. synthetic and gives rise to real feelings. An extra attribute worth appreciating, especially for cosy conversations with friends and family around the dining table.

Sami Kallio is an award-winning designer based in Gothenburg, where he draws on his skills in classic woodworking craftsmanship to create furniture and interiors with a modern expression. Born in Finland and brought up in Sweden, Kallio's well thought-through concepts reflect the perfect pairing of purity and practicality with simplicity and modernity.

&tradition is a Danish design company established in 2010 with the founding principle being tradition tied to innovation. Our unique library of furniture and lighting spans from the 1930s to the present day and includes designs by internationally renowned designers.

Product category	Dining table
Production Process	The table surface is made of solid wood planks, which are planed and glued together. The wood is carefully selected for its patterns and veining to create a homogeneous surface. The legs are made of solid wood involving a woodturning technique using a lathe to create the conical shape. Wood blocks are used to attach the legs to the table to make it more stable when mounted.
Materials	Solid oak & oak veneer.
Dimensions (cm/in)	The dining table comes in two sizes: SK5 - H:74cm/29.1in, W:200cm/78.7in, D:90cm/ 35.4in. SK6 - H74cm/29.1in, W:250cm/ 98.4in, D:100cm/ 39.4in.
Colors	White oiled oak, Smoked oiled oak, Black stained oak (RAL 9005).
